

Wisconsin Jaguars Ltd. was formed in 1979 to serve the needs of Jaguar enthusiasts throughout the state for the exchange of information and ideas, and to share the sheer joy of these wonderful cars. Since its formation, our club has grown to a membership of almost 100 owners (families) with almost 200 Jaguars. The Jaguars owned by our members range from a 1934 SS1 Coupe to the current 2020 F-Pace and from the famous SS-100 through the XK-120, 140, and 150 series, plus all of the E-type's. Some of the rare Jaguars owned by club members are an XJ220, E-Types and an XK 120 with race history.

We believe that our Jaguars should be enjoyed and driven. Accordingly, we tailor our events not only to the owners who prefer to do their own maintenance, or want to learn how; but also to those who wish to just display or drive their Cat.

If this sounds like the type of club you have been looking for - to help you locate those hard-to-find parts, to meet and share experiences with other owners, and to tour the countryside in the company of other Jaguars - send in the form at the right with your membership fee. It's well worth the modest expense.
