From the Litter Box

The day to day world can run you down and wear you out; even if you are retired. Hobbies and the clubs you belong to can be a great escape. Our Jaguar club is no different. Club memberships are in decline, virtually all types of clubs. JCNA is struggling. The good news is Wisconsin Jaguars Ltd is not. Our numbers edged up a few years ago and have stayed stable. I am hoping it's because we are offering members activities that interest them; and importantly all the good food!

Things never stay the same. Jaguar is going all electric, high end electric. Their new 4 door sedan will debut later this year at a projected 125K. They are slashing the number of dealerships. Their Canadian sales projections are 700 cars. They want to sell exclusivity. That will make it difficult to find new club members with Jaguar's new company model. There is a rumor that Jaguar is selling to China. Is it true? They already own Volvo, Polestar, MG and Lotus.
